

GTM is the original global telecommunications meeting, held 2-5 June 2008 at the newly renovated Marriott Wardman Park. GTM is attended by over 3,000 world wide industry professionals. Last year 34% of attendees were from Europe and Middle East, 40% from North America, 10% from Latin America, 9% Asia Pacific, and 7% from the Africa.

This conference brings together over 3,000 attendees each year, with representation of over 800 companies from around the world. GTM offers networking and business development opportunities, informational conference sessions, and exhibits illustrating the latest technologies.

Who Should Attend?

Carriers • Corporate Network Providers • Government Entities • Satellite Providers • Service Providers • Teleport Operators • And Many Others!

GTM 2007 Companies Regional Distribution

Enhancements

- » To demonstrate our continued commitment to you, we are increasing meeting space availability. This enhancement allows better traffic flow for networking and customer interactions. As always, bilateral tables will be available.
- » Option to purchase space for you to host events from a one-on-one meetings, up to a reception for 500.
- » We have lowered our prices based on customer response to be more cost effective. GTM full conference registration is \$500, which includes a ticket to the GTM Gala.
- » The entire Intelsat executive and sales teams will be in attendance to meet with you one on one! Schedule your time now to ensure your spot. Let's learn from each other!

Networking Opportunities

- » *FastMatch*, an online networking tool, facilitated more than 33,000 meetings at GTM 2007! This system allows users to view attendee profiles, request specific meeting times, and view company profiles and brochures. Once registered you will be given instant connectivity. This is the on-line messaging tool that enables you to connect with all other attendees at GTM.
- » The Intelsat Gala, "Around the World", is always a crowd pleaser. This event is the must-attend event to network with your peers.
- » Opportunity to network and trade – under one easily accessible venue.

With the participation of telecommunications leaders from around the world, we can realize the great possibilities and business advantages GTM brings to the industry. **Visit www.gtmintelsat.com to get started!**
