Intelsat's control. Known risks include, but are not limited to, insufficient market demand for the services offered by Intelsat; inadequate supply of available Intelsat capacity; the quality and price of services offered by Intelsat's competitors; the risk of delay in implementing Intelsat's business strategy; Intelsat's access to sufficient capital to meet its operating and financing needs; changes in laws and regulations or the inability to maintain required governmental authorizations; political, economic and legal conditions in the markets Intelsat is targeting for communications services or in which Intelsat operates; general economic conditions; and a change in the health of Intelsat's satellites or a catastrophic loss occurring during the in-orbit operations of any of Intelsat's satellites. More detailed information about known risks is included in Intelsat's annual report on Form 20-F for the year ended December 31, 2004 on file with the U.S. Securities and Exchange Commission. Because actual results could differ materially from Intelsat's intentions, plans, expectations, assumptions and beliefs about the future, you are urged to view all forward-looking statements made in this news release with caution. Intelsat does not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
