

Beijing 2008 brought to you by Intelsat Broadcast Services & Special Events

Broadcast Services Facility

Intelsat Special Events, in partnership with local providers, will offer services to the non-rights holding broadcast community during the 2008 Beijing Summer Olympic Games. Services include:

- Live shot position, with backdrop of the Olympic Stadium (Birds Nest) and Olympic Green
- Multi-format tape play-out services
- Feed point connected to a fixed uplink in Beijing
- Transmission to dedicated OU capacity (C-band) on IS-2 at 169° East
- Transport via the Intelsat global network to virtually any destination in the world

Remote Production Facilities

For broadcast requirements around Beijing, Intelsat and our local partners will also offer SNG trucks and Flyaway services. Competitive rates are tailored to suit your needs from half day (6-hour) hire to three week lease.

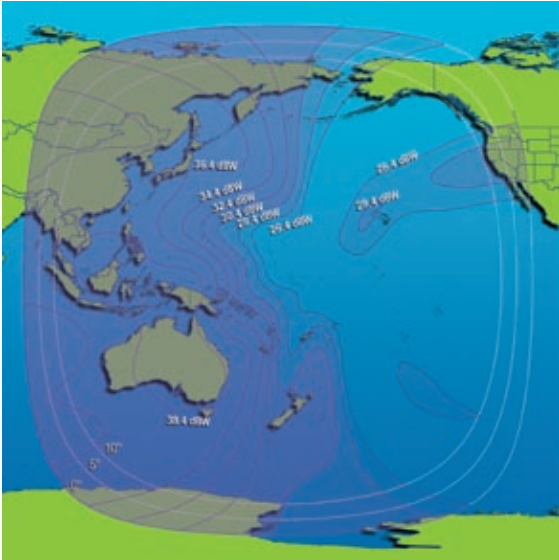

- Unit 1: C-band DSNG truck 2.2m
- Unit 2: Ku-band DSNG truck 1.8m
- Unit 3: C-band DTV flyaway 1.8m
- Each unit is fully redundant and equipped for SD services
- ENG crew and production equipment available upon request

BENEFITS AT A GLANCE

- One-stop-shop
- 24/7 Operations Center
- Dedicated Occasional Use (OU) capacity on our satellite network for worldwide coverage
- Points of Presence (PoPs) and Intelsat managed fiber in key cities worldwide
- Extensive database of third party vendors and contacts worldwide, providing local knowledge and expertise
- Dedicated pool of broadcast infrastructure for fast, cost effective build-outs of transmission platforms
- Project and on-site management eases your burden
- Rate-card for services in major cities

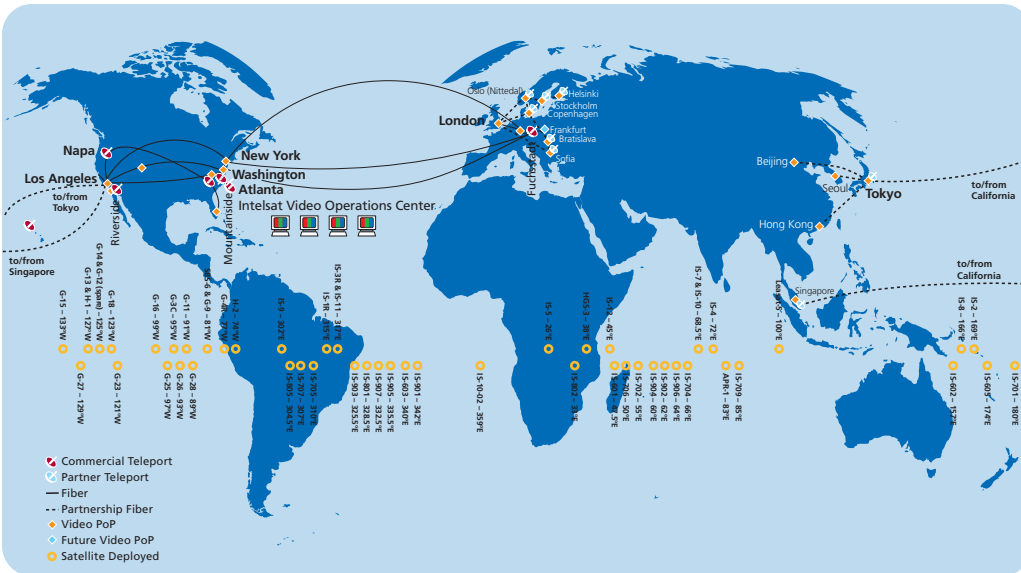

IS-2 at 169°E
