FlexMove for Government

Keeping Ground Forces Connected

Deployed ground teams require instantaneous access to secure, high data rate communications to ensure fast and effective decision-making.

FlexMove for Government delivers ahead of competing solutions by providing superior data speeds, ease of use, pricing flexibility, enhanced security, and global coverage for ground forces.

Performance

FlexMove delivers the high-performance connectivity required to meet simultaneous data, voice, and video needs with 6x greater capacity per beam than competitive offerings.

Coverage

FlexMove leverages the full Intelsat network of more than 50 satellites, including the Intelsat Epic high-throughput satellite platform for multi-layered, worldwide coverage.

Reliability

As the first fully managed, global Ku-band network, FlexMove enables access to always-on broadband capabilities to 90% of the world. And we're there to help 24/7.

Service Implementation

Comms-On-the-Move (COTM) and ManPack offerings include antennas as small as 60cm, making them easy to transport. And they can be deployed in the field in minutes.

Price

FlexMove offers flexible and affordable pricing, including a pay-as-you-go plan designed to fit individual needs. Up to five users can share a single subscription and pool data across terminals.

Security

Enhanced anti-jamming capabilities ensure always-on connectivity, free of interference from hostile forces.

FlexMove At a Glance

10x
Improved data throughput with speeds up to 10 Mbps forward and 3 Mbps return.

6x
FlexMove offers 6x greater capacity overall than competitive offerings.

60cm
Smaller receiving antennas mount easily to mobile platforms.

5mins
Deployment and connection can be completed quickly and easily.

3hrs
Manpack units are capable of hours of transmit time.

Put FlexMove to Work:

Border Control | Homeland Security | Disaster Recovery | C4ISR | Advanced Team Support

50+ wide and high-throughput spot beams deliver multi-layered, resilient capacity.

24/7 Secure Operations Center is there for users at any time.

Up to five users can share a single subscription and pool data across terminals.
