

Expand Your Reach into Latin America

Intelsat 14

Cable Distribution Neighborhood

Intelsat 14 @ 315°E

Intelsat 14 (IS-14) is a regional broadcast and cable neighborhood providing sports, entertainment, news, and education content to over 25 million cable subscribers across Latin America. IS-14 carries key programming from national broadcasters, with high penetration into regional systems. Additionally, the pan-regional beam on IS-14 offers connectivity and resilient capacity throughout Latin America and the Caribbean.

In Latin America, Intelsat offers the premier cable distribution neighborhoods with high-performance, fully penetrated satellites carrying the biggest programming names from around the globe.

- Seamlessly integrated with IntelsatOne®, our terrestrial network that incorporates IP/MPLS fiber, teleports and points of presence
- MCPC platforms allow programmers to cost-effectively launch new channels quickly, making it the best commercial option to expand your audience
- Distribute more channels to cable subscribers in Latin America than any other satellite operator
- Intelsat neighborhoods deliver 95 of the top 100 most-watched channels
- Popular programmers such as Discovery, Disney, ESPN, Fox, HBO, NBC Universal, Turner, and Viacom rely on our video neighborhoods for maximum audience penetration
