

# Expand Your Reach into Latin America

## Intelsat 14 – the Rising HD Cable Distribution Neighborhood

For media providers, cable and broadcast distribution success means efficiently reaching as many viewers in as many places as possible, and adjusting content offerings as specific market demands evolve. As your needs expand regionally or globally, you need a world class distribution network that will quickly and effectively deliver your target audience.

### Intelsat 14 @ 315°E

Intelsat 14 (IS-14) is the newest addition to Intelsat's Latin America video neighborhoods with channels covering sports, entertainment, news, and education. As an emerging HD video neighborhood that sits among an unrivaled four-satellite C-band family, IS-14 enables growth and resilient capacity. Intelsat's LATAM video neighborhoods give you access to millions of viewers and empower you to instantly manage your broadcast requirements with traditional wide-beam satellite capacity.

**In Latin America, Intelsat offers the premier cable distribution neighborhoods with four high-performance, fully penetrated satellites carrying the biggest programming names from around the globe.**

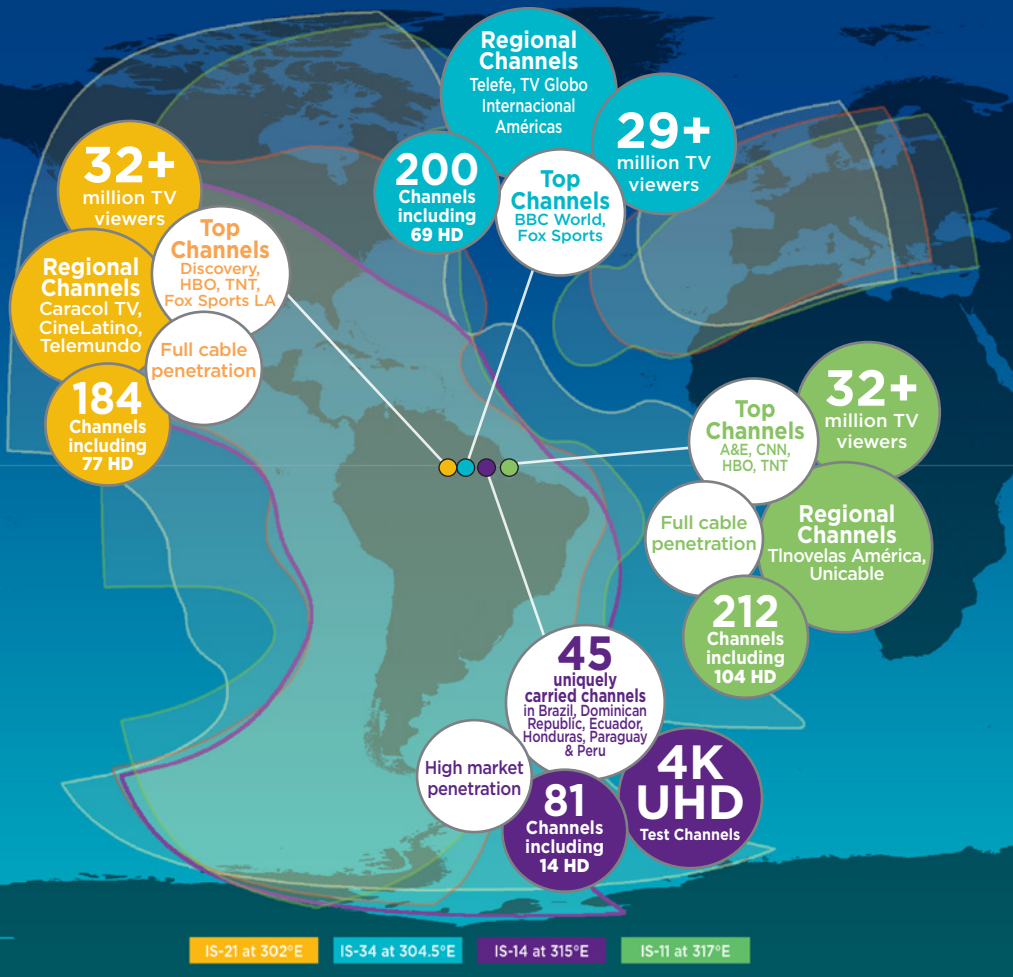

- Seamlessly integrated with IntelsatOne®, our terrestrial network that incorporates IP/MPLS fiber, teleports and points of presence
- MCPC platforms allow programmers to cost-effectively launch new channels quickly, making it the best commercial option to expand your audience
- Distribute more channels to cable subscribers in Latin America than any other satellite operator
- Intelsat neighborhoods deliver 77 of the top 100 most-watched channels
- Popular programmers such as Discovery, Disney, ESPN, Fox, HBO, NBC Universal, Turner, and Viacom rely on our video neighborhoods for maximum audience penetration

### Benefits At-A-Glance

- Offers growth for premier pan-regional program distribution
- DVB-S2 MCPC platform offers managed video distribution service for quick and cost-effective channel launches
- 40+ channels uniquely distributed and fully penetrated in Dominican Republic, Ecuador, Honduras, Paraguay, and Peru
- NASA 4K UHD feed
- 100% coverage in Latin America with connectivity to Europe, Africa and Asia
- The IS-14 is now part of a unique four-satellite neighborhood, which provides unsurpassed coverage, flexibility, resilience, and scalability

Latin America's premier cable distribution neighborhood with four high-performance, fully penetrated satellites carrying the biggest programming names from around the globe.

## About Intelsat

As the foundational architects of satellite technology, Intelsat operates the largest, most advanced satellite fleet and connectivity infrastructure in the world. We apply our unparalleled expertise and global scale to reliably and seamlessly connect people, devices and networks in even the most challenging and remote locations. Transformation happens when businesses, governments and communities build a ubiquitous connected future through Intelsat's next-generation global network and simplified managed services.

At Intelsat, we turn possibilities into reality. Imagine Here, with us, at [Intelsat.com](http://Intelsat.com).
