

# INTELSAT Connect

## Satellite Made Simple for a Superior Customer Experience

### One Click, Total Connectivity

Intelsat Connect is a mobile application designed to make service fulfillment and activation faster and easier. With little to no technical expertise required, Intelsat Connect seamlessly connects you to the network for an improved overall customer experience.

### Explore the Capabilities of Intelsat Connect

#### Onboard Field Technicians

Easily onboard field technicians for exclusive access to detailed instructions on the terminal activation process and terminal monitoring to streamline service success.

#### Beam Selector

Automatically connect to the optimal satellite and beam based on fill factor, signal quality and more, ensuring superior performance.

#### Installation Made Easy

Access video guidance under "Intelsat Terminals" to be led step-by-step through the installation process, ensuring a successful setup every time.

#### Terminal Checkup

Download all essential options files and software versions for your terminal, guiding you through the commissioning process for seamless network connectivity.

#### Network Status

Conduct a speed test anytime to promptly assess your network status.
