

The Kymeta™ Goshawk u8 Multi-orbit Terminal for Seamless, Secure Connectivity On Intelsat's Multi-orbit FlexMove Services

Designed for defense, public safety, government, and enterprise sectors, the Kymeta™ Goshawk u8 terminal enables uninterrupted, secure communications across Intelsat's geostationary orbit (GEO) and Eutelsat OneWeb's low-Earth-orbit (LEO) satellite networks. Engineered for resilience in challenging environments, this terminal provides high-speed, low-latency broadband for mission-critical applications on-the-move or on-the-pause.

When paired with Intelsat's multi-orbit service portfolio, the Goshawk u8 becomes a powerful mobile communications solution—offering global reach, dynamic routing, GNSS-denied capabilities and enhanced redundancy with intelligent satellite and cellular network switching.

Example Use Cases

Public Safety and
First Responders

Public Safety and
First Responders

Non-governmental
Organizations and Aid Groups

VVIP
Vehicles

INTELSAT

OneWeb
Technologies

The Kymeta Goshawk u8 Terminal

- Multi-orbit terminal with embedded LEO modem & GEO modem compatibility
- Electronically steered array (ESA) for high-speed connectivity at rest and in motion
- Integrated cellular (LTE-A Pro) and Wi-Fi 6 for hybrid network flexibility
- Throughput up to 195/32 Mbps (LEO) and optimized GEO performance
- Low-profile, ruggedized design for safe and secure communications
- Ease of use, setup, and troubleshooting facilitated by Kymeta Access mobile app

SPECIFICATIONS

| | | | |
|---------------------------|---|---------------------------|--|
| ANTENNA TYPE | Flat panel, full duplex, Ku-band ESA | DIMENSIONS | L 89.5 cm × W 89.5 cm × H 14 cm / L 35.2 in. × W 35.2 in. × H 5.5 in. |
| SCAN ANGLES | Azimuth: 360°, Elevation: +15° to +90° | WEIGHT | 34 kg / 75 lb. |
| POLARIZATION | Circular or linear (software-defined) | INPUT POWER | 12 VDC to 36 VDC or 90–305 VAC (via accessory) |
| RECEIVE (RX) BAND | 10.70 GHz – 12.75 GHz | POWER (TYPICAL) | 125 W (LEO) / 175 W (GEO) |
| TRANSMIT (TX) BAND | 13.75 GHz – 14.50 GHz | OPERATING TEMP | –40 °C to +70 °C |
| MODEMS | Embedded Eutelsat OneWeb (LEO) External GEO modem compatibility (iDirect, Gilat, Viasat, Comtech, L3) | STORAGE TEMP | –40 °C to +85 °C |
| INTERFACES | Ethernet, Wi-Fi 6, N-type RX and TX IF connections for GEO modems | INGRESS PROTECTION | IP66 |
| EXTERNAL GNSS | Ethernet (GEO) or SMA (LEO & GEO) | COMPLIANCE | CE, FCC, RoHS, RED, REACH, RCM, NOM, TELEC, Anatel |

ACCESSORIES (Available Separately)

- Vehicle roof rack mounting kit
- AC/DC or –DC/DC power kits
- Fixed and maritime mounting options
- Rugged Go-case with integrated power, tilt and vehicle mounts

Intelsat provides advanced multi-orbit, multi-band, and multi-network SATCOM solutions for mission-critical communications anytime, anywhere, all backed by expert account management and highly secure network operations.
